QUESTIONS

Is this visualisation
 USEFUL / INTERESTING?
 Does it have enough focus on
 AUSTRALIA?
 Should I have more
 maps? Maybe include lots
 of detail/complexity into
 one map.

 Sheet 2

Task Design an infographic

OPERATION

> Click on small bubbles to expand charts.

Australia focus so filter Australia against other countries.

Tooltips -> include units & measurement!

FOCUS

- Focus on one bubble at a time.
- Vis will indicate which bubble to click next.

Maybe make the map bubble very large ~~size~~ if global map.

DISCUSSION

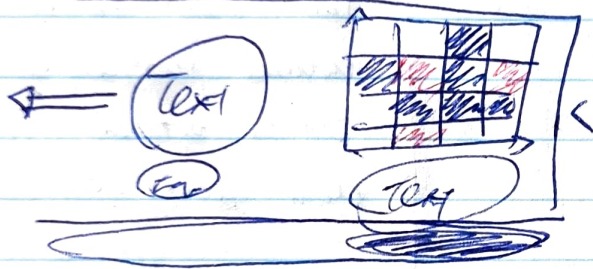

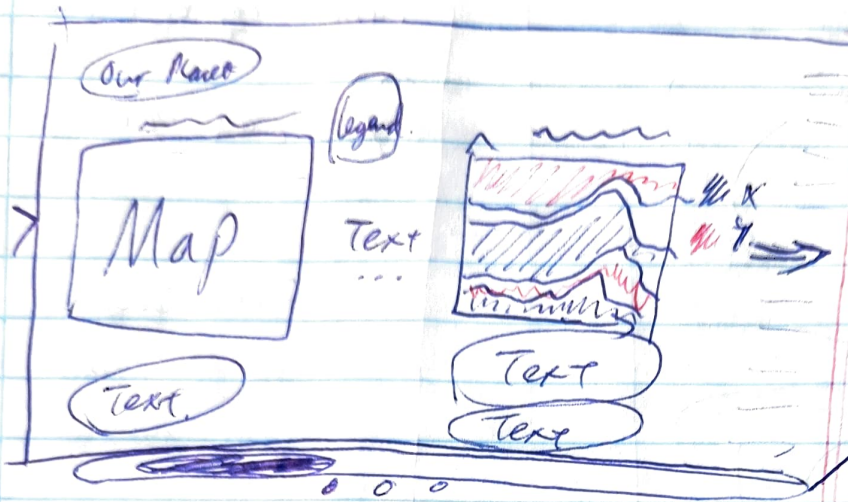

Advantages

Unique format & appearance
 Not too overwhelming,
 can explore maps one by one.

Disadvantages

No clear focus
 hard to see ~~what~~ everything at once.

LAYOUT

Sheet - 3
Task - A sideways scrollbar

OPERATION

Bar at bottom for horizontal sliding

Very logical viewing order. Maybe could option to view as pages.

FOCUS

One section of the visualisation at one time. Once finished, scroll right.

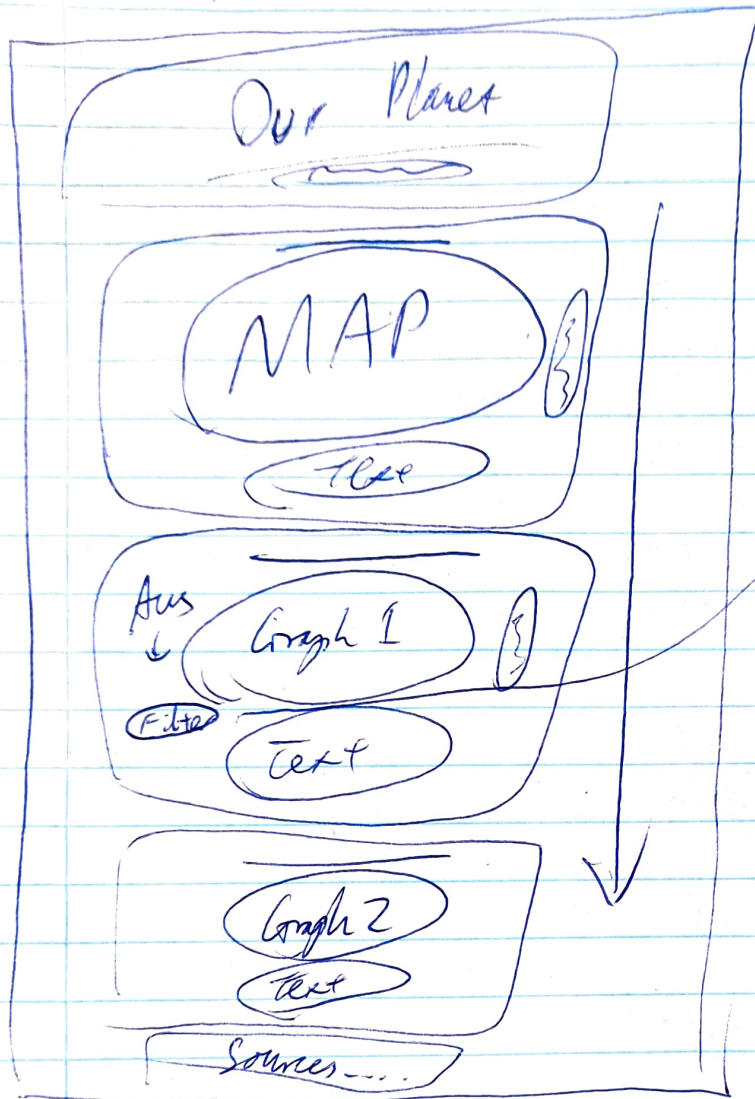

DISCUSSION

Adv. Obvious and clear order to reading.

Disadv

→ Doesn't fit into one clear window, ~~with~~ can't view all at once.

LAYOUT

Title - Vertical Poster

Sheet - 4
Task - Top to bottom scroll

Operation

Filters help to identify patterns across files.

Scroll down format, natural storytelling top to bottom following clear narrative.

FOCUS

Focus is simply order of viewing.

Map → text → graph → text and so on.

DISCUSSION

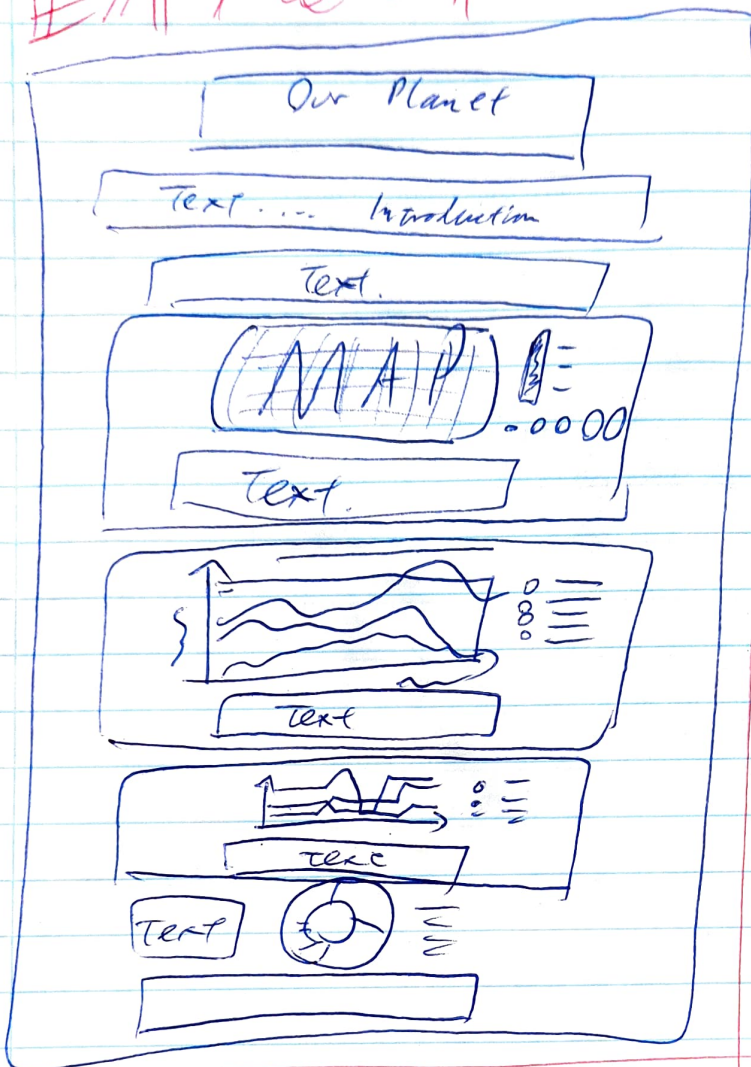

Advantages

- > Very clear order of viewing. Simple
- > Graph + text

Disadvantages for each section.

> None?

LAYOUT

Title - Final design Sheet
Author - Brian T. Huang

Sheet - 5
Task - Finalise design.

OPERATION

Similar to sheet 4,
scroll down to view visualisation
as narrative story.

Hover over each graph for
tooltips.

Filters available to select
causes of deforestation
per countries.

FOCUS

Map will introduce topic and give
global overview/trends.

Immediate jump into focus on Australia.
More graphs and charts on Aus.

To finish up, going back out on scope,
looking toward the future on global
trends. for future action.

DISCUSSION

Advantages

Uniform blocks/sections
that show chart + information.

Easy top → bottom flow.

Disadvantages

Too boring maybe?

No real disadvantages.
